

Saranac 160 Series

How can you improve a centuries-old design? In lots of ways, it turns out. We started from scratch with the new Saranac family of canoes and, by modifying the shape and slightly lowering the seats we have developed a model that paddles better than most recreational canoes on the market. The Saranac features two contoured seats plus a bench seat perfect for smaller passengers. Available in base, XT or angler editions, the Saranac is affordable family fun!

FEATURES
