

OCEAN KAYAK

NEW FOR 2008!

Peekaboo™

Go ahead, take a peek! The Peekaboo is a unique design that adds a whole new dimension to your time on the water. A large viewing window allows you to look into the water while you are paddling. The Peekaboo features a kid's jump seat which is perfect for a smaller paddler who also wants to take a peek into the underwater world. Large load capacity and high initial and secondary stability make this kayak the perfect choice for family fun on the water.

Features

- Comfort Plus™ seat back
- Kid's Jump Seat positioned for both passengers to comfortably view and paddle
- Pronounced integral keel provides excellent tracking
- Huge shoulders provided added stability while viewing
- Oversized tank/gear well are perfect for snorkel gear or a picnic lunch
- Molded-in cup holder
- Molded-in water bottle holders
- Transducer compatible scupper for a fish finder
- Built-in ergonomic handles for easy re-boarding and handling
- Self-bailing scupper holes that can easily be plugged for a drier ride

Options

- 6" Cam-Lock Hatch (bow)

Window Features

- Window is positioned exactly where you look
- Leak proof
- High grade polycarbonate shatter proof, scratch resistant window is superior to the competition
- Deep window well reduces the glare of the sun for easy viewing
- Easy window replacement in the unlikely event it becomes damaged
