

## PERFORMANCE AT AN AFFORDABLE PRICE

Here's a great new kayak from Necky aimed at the beginner and intermediate kayaker. It's the brand new Rip and it's the ideal way for the entry level paddler to increase their skills on the water and have a lot of fun at the same time.

Designed by Spike Gladwin and the Necky team, this is a lively and responsive craft which delivers performance at an affordable price while having the unmistakable benefits of a Necky pedigree behind it.

At 10'6" long (3.2m) the Rip offers tremendous glide for a boat of its size. The moderate rocker means it handles and manoeuvres well providing a dynamic yet dry ride.

The roomy cockpit is designed for easy entry and exit and once inside you feel at one with the boat in the new Comfort Flex™ seat. This seat has a specially engineered foam base and lower back pad which is adjustable to offer the perfect position for all day comfort. Soft, lightweight thigh pads provide added handling and control.

For stowage there is a Quick-Seal stern hatch with a bulkhead that provides plenty of dry space on board to store kit and equipment. The hatch is secured with the unique Cross Lock™ strapping system which has "X" pattern straps and a quick release buckle which is easy to use even with cold hands. Deck bungees fastened to recessed deck fittings provide further storage and there are toggle carrying handles fore and aft.

The Rip is built of PolyLite™, a polymer specifically designed for recreational kayaks to optimize stiffness, durability and keep the overall weight down. This material also has UV inhibitors mixed into the polyethylene to help maintain the life of the kayak. Colours available are yellow, red, blue, mango or sunrise and the price is £549.

**New for 2010 - The Necky Rip**  
**Length: 10'6" (3.2m)**
